DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 13-17 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Some type of light leaking means, critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). While claim 13 at least claims the light guide panel, there is no structure recited in the claim which allows light to escape from under the cover when the cover is closed. Note the original rejection in the Office Action of 9/24/08 was in error in that it only identified claims 14-16 as being rejected under 35 U.S.C. 112, first paragraph.

Allowable Subject Matter

Claims 7-12 are allowed.
